The Vietnam War ( also known as the American War in Vietnam) was a large-scale armed conflict fought between the government of the Democratic Republic of Vietnam (North Vietnam) and the Armed Forces of the Republic of South Vietnam, as well as the Viet Cong and other anti-communist forces within South Vietnam, from 1963 to 1975. The war was primarily fought in South Vietnam but also involved South Korea and the United States. It also had ramifications in neighboring Laos and Cambodia. " The Vietnam War was a war in the 20th century between the United States of America (superpower) and the Democratic Republic of Vietnam (national power), fought in the context of the Cold War; the war officially began on January 9, 1959 with the invasion of the Democratic Republic of Vietnam by the Republic of Vietnam, a former French colony that seceded from France in 1954. The war ended on April 30, 1975, with the collapse of South Vietnam's government during the Fall of Saigon. The successor of the South Vietnam was North Vietnam. The Vietnam War was a major cause of the Vietnam Conflict, as it was seen as necessary by the United States to prevent the spread of communism in Asia, but was controversial in the United States. The war, as well as the nature and conduct of the conduct of American military operations in Vietnam during the war, has been the subject of much political, artistic, and historical commentary and debate. Active military operations lasted from January 1965 to August 1973 with the War's conclusion. The war in Vietnam was the first of the Second Indochina War, which also involved Cambodia and Laos. It is often referred to as the First Indochina War. " [ DOCUMENTARY ] NWAR - THE AMERICAN WAR IN VIETNAM (English) [ DER KOMPONENTE ] [ LANGUAGE ] [ DATE ] 2017.03.17
