===== Swedish Spring Theme is a collection of twelve spring colors themes for mobile phone users to enjoy the beauty of Swedish nature and the pretty flowers that bloom in spring. This is the fifth edition of the free Coloring Book series for Android. This time the pages are all hand drawn and colored by a gifted artist who is also a good friend. The drawings are designed for the new age color lovers, who enjoy artistic design and appreciate the beauty of colors, and they all depict colorful scenes of the seasons and a beautiful woman as a guest. Each of the twenty five drawing take approximately five minutes to draw, and each card has a color key so that you don't have to worry about mixing up the colors. Each of the pages is also printed in a special technique called "Spiralbound Printing" which is different from the usual glue binding technique, and the edges of each page are folded in to create a soft finish. This will make sure that your finished drawing will have a beautiful and attractive soft touch as if you were looking at a real painting. Coloring Books are very popular among many young people, and this new Coloring Book series will be a great encouragement to everyone. This Coloring Book series is a FREE application, with no subscription. The second edition of the free Coloring Book series for Android is finally here, although it is a little late. Actually I released the latest edition some time ago but I accidentally sent out the wrong files, so sorry for that. This edition is a reboot of the series, and the drawings are all hand drawn by a gifted artist who is also a good friend. You can expect many improvements in this series,

Hope this helps some of you guys! Just found this while searching for ways to make the android version of the file manager i use work better. I'm using Mandie for iOS and love it, and the fact that it's a universal app can be useful for apps with more than one kind of file structure (eg PSP, VHS, minidisc, etc). Anyway, it's great to see a file manager for Android that will work for folders and other apps as well as a real file manager, like the one from Mandie. I have a problem to install this theme on my smartphone. I downloaded theme and copied from SD card and to my phone but theme is NOT working. When I tried to start the website I got a message that my browser is not supported. Help me I'm trying to download and install this theme for Android, but while I have downloaded it from another place, it asks me to open the browser, and when I select mobile devices from my Android device, it tells me “Browser not supported.” Any advice?
